## Course Summary

The games sector is a dynamic, growing and rewarding sector. The UK's games industries as a whole are worth over £4 billion per year to the UK economy. Working in games development might involve researching audiences and generating new ideas for programmes and products; being involved in the production of media products, for example recording sound, filming and creating assets; working in post-production editing digital footage or creating animated sequences. Job roles can also involve testing and debugging new games. These creative industries are linked by the need to inform, entertain and engage audiences.

## What You Will Learn

Students will develop knowledge of games development in the game industry and will learn to utilise a range of software including 2D and 3D games engines. We have the latest Core i9 state of the art Gaming PC's and classrooms equipped to host both the

games and Esports courses. students will be given an opportunity to attend the Yorkshire Games Festival.

This qualification gives learners the opportunity to develop their technical creative media skills over their course of study, through a process of critical evaluation, practice and review, which are key skills for progression to Higher Education. The qualification also supports learners in becoming confident in taking ownership of and responsibility for their projects.
