

Electrical Installation

Subject Area	Engineering
Course Type	School Leavers
Study Level	Level 1
Delivery Mode	Full-time
Location	Trinity Green
Duration	1 Academic Year
Start Date	September 2024
Course Code	PA000077

Course Summary

Our City & Guilds level 1 course gives you an introduction to the health and safety, the construction trades and the skills required to secure a job in the electrical industry. Much like plumbing, you can choose to work for yourself, installing lighting and socket circuits in homes and commercial buildings, installing electric vehicle charging points and carrying out testing and commissioning procedures on new and existing installations. You will also take advantage of learning about green skills and sustainability with a big focus on smart technology, energy efficiency and the environment, there's never been a better time to train as a modern electrician.

What You Will Learn

We will show you how to install different types of wiring systems and connect them to a range of different equipment and appliances. You will also learn about the modern alternatives – such as Smart technology, electric vehicle charging, solar pv, wind/hydro technologies and the generation of electricity so that your skills are cutting edge and future proofed. The industry is changing so quickly, new technology is emerging, so we

work with employers across Bradford to make sure what we are teaching you is fully up to date and has real value to companies when you go to work for them.

Modules

- Introduction to Health and Safety in Construction
- Introduction to the Construction Industry
- Connecting Flex to Common Apparatus
- Assembling 13Amp Switched Sockets Wired in Ring Main
- Constructing PVC Wiring Systems
- Cutting, Bending, Joining and Threading Conduit
- Installing One-Way Lighting Circuits
- Installing Two-Way Lighting Circuits

Entry Requirements

Entry to this course requires GCSE Maths and English at a grade 2 as a minimum. Please note that you will be required to wear safety boots with steel toe caps and a high-visibility vest when working in the Electrical workshops. Prior to enrolment on the course, please make sure you have access to these resources.

Work Experience

Your course may include experience of work or a work placement that could lead to the offer of part-time, voluntary or casual work. You might be able to work outside of your studies. Our students benefit from local site visits and trips to construction companies within the local community.

Progression

Successful completion of this course can lead to our [Level 2 Diploma in Electrical Installation](#), employment or an Apprenticeship. Careers include:

- Electrician
- Maintenance Electrician
- Electrical Fitter
