Course Summary

Master the tools of the trade with our Bricklaying course!

This course is an exciting and hands-on qualification designed to get you ready for a successful career in the construction industry.

Perfect for those aiming to become skilled site carpenters, this course covers everything you need to know, from structural to non-structural work. You'll learn key construction principles, bricklaying techniques, and how to use modern tools, all while gaining the precision and efficiency needed to stand out in the industry. The course includes challenging assessments that meet high industry standards, making sure you're ready for any job.

What You Will Learn

Skills you'll develop:

- **Teamwork:** Learn how to work well with others on construction sites to get the job done efficiently.
- **Communication:** Develop clear communication skills for working with colleagues and clients.
- **Problem-solving:** Gain the ability to think on your feet and find solutions to challenges on the job.
- **Attention to detail:** Improve your ability to notice small details to ensure quality work.
- **Time management:** Learn how to manage your time effectively to meet deadlines and stay on track.
- **Adaptability:** Become more flexible and able to handle changes or unexpected issues on-site.
- **Confidence:** Build the confidence to take on new tasks and handle responsibilities.
- **Safety awareness:** Understand the importance of working safely and looking out for yourself and others.

Modules

Core modules:

- Health and safety in a construction environment
- Principles of welfare, health and safety in construction environments
- Principles of working in the construction industry
- Setting out buildings
- Building solid walls and piers
- Building cavity walls

Please note that you will be required to wear safety boots with steel toe caps and a high-visibility vest when working in the workshops. Prior to starting this course, please make sure you have access to these resources.

Entry Requirements

Entry to this course requires GCSE Math's and English Language at a grade 4 as a minimum.

Progression

After completing this course, you'll be ready to pursue:

- Apprenticeships in carpentry, bricklaying, or other construction trades.
- Roles such as site carpenter, bricklayer, or construction laborer.
