

# Electrical Installation

View on [bradfordcollege.ac.uk](https://bradfordcollege.ac.uk)

Subject Area	Construction
Course Type	School Leavers
Study Level	Level 2
Delivery Mode	Full-time
Duration	1 Academic Year
Start Date	September 2026
Course Code	PA000392

## Course Summary

Our Level 2 Electrical Installation course provides you with the fundamental knowledge and skills required to continue your career as an electrician. The course combines theoretical understanding with practical skills development, preparing you for both further study and workplace readiness. Like an installation electrician working in a domestic, commercial or industrial environment, you will demonstrate an understanding of electrical scientific principles, the installation of different wiring systems, enclosures and equipment, circuit theory and installation methods, electrical testing procedures and much more. On successful completion of this qualification, you will be at an Improver/Electrician's mate level.

This course includes project-based learning that embeds GCSE Maths and GCSE English directly into theoretical and practical, vocational tasks through a contextualised model. This ensures learners develop relevant, essential and applied skills that align with the expectations of the construction industry and support their long-term progression.

## What You Will Learn

---

You will learn about the importance of health and safety in the electrical industry, electrical theories including; Ohm's Law, power equations, and resistance, the principles of alternating current (AC) and direct current (DC), electromagnetic principles and mathematical calculations for electrical installations.

You will also take advantage of learning about green skills and sustainability with a big focus on smart technology, energy efficiency and an awareness of solar pv, electric vehicle charging points, battery storage and heat pumps. There's never been a better time to train as a modern electrician.

## Modules

---

Principles of Electrical Science.

Electrical Installations Technology. Installation of Wiring Systems and Enclosures. Understand How to Communicate with Others within Building Services Engineering

Health and Safety in Building Services Engineering.

## Entry Requirements

---

Applicants and progressing learners must have GCSE Maths at a grade 4 and GCSE English at a grade 3 as a minimum and successfully completed a Level 1 Electrical Installation qualification.

## Work Experience

---

You will undertake a minimum of two meaningful employer encounters and two employer-led masterclasses, all designed to develop your soft and foundational skills. Throughout the course, you will partake in tailored workplace visits and industry insight events, explore specific career pathways and gain a clear understanding of workplace expectations. You will also undertake mock interviews, CV development activities and receive guidance and support from industry professionals to help you prepare for your next steps.

## Progression

---

Successful completion of this course can lead to progression onto our Level 3 Advanced Technical Diploma in Electrical Installation, as well as opportunities for employment or an apprenticeship.

Careers include:

Installation Electrician (Domestic, Commercial, Industrial)

Maintenance Electrician

Electrical Fitter

Renewable Energy Installer
