Course Summary

Start your digital future here!

Get hands-on experience and real-world knowledge in computing with our Foundation T Level: Digital course—a perfect stepping stone for a future in the digital industry. Designed for students passionate about technology, this course blends key subjects with exciting digital topics such as website development, online security, and digital portfolios.

Through interactive lessons and work-related projects, you'll develop essential skills, build confidence, and prepare for further study or a career in the fast-growing digital sector. Successful completion earns you a BTEC Level 2 First Award in ICT, opening doors to the next stage of your journey.

Why choose a Foundation T Level?

- Aspiring Digital Professionals – If you want a career in software development, cybersecurity, or IT support, this course is a great starting point.
- Future-Focused – Learn key digital skills like coding, web design, and data

management to prepare for an evolving tech industry.
- Practical, Real-World Learning – Combine classroom study with hands-on projects to develop real-world problem-solving abilities.

This course is ideal for you if:

- Are interested in digital technology and want to explore careers in IT, cybersecurity, or web development.
- Enjoy both classroom learning and practical, hands-on projects.
- Want to build a strong foundation before moving on to a full Digital T Level.

Apply now and start your digital career journey today!

What You Will Learn

Skills you'll develop:

- Communication Skills – Learning how to communicate clearly and work well with different people, including digital professionals.
- Teamwork – Working together with other members of a team to achieve goals.
- Problem-Solving – Using critical thinking and problem-solving skills to fix issues that come up in digital projects.
- Professionalism – Understanding professional standards and ethical principles when working in the digital world.

Modules

Core modules:

- GCSE Maths – Essential Maths skills needed for the digital industry.
- GCSE English – Communication skills essential for interacting with digital professionals.

The Online World, A Digital Portfolio and Website Development

Specialist Subjects:

- Digital Skills – Understanding key digital principles, including data management, networking, cybersecurity, and software development, as well as digital applications, data protection, and digital media.
- Digital Technologies – Gaining hands-on experience with the latest technologies

used in the industry, such as cloud computing, programming languages, and IT systems.

Specialist Units:

- Mobile Apps Development

- Software Development

Entry Requirements

Entry requirements are 4 GCSEs at grade 3, including Maths and English Language.
Or
Level 1 ICT and Maths and English at Grade 3

English and/or Maths will be included in your timetable if you have not achieved a GCSE at grade 4 or above in these subjects when you start your course.

Work Experience

Launch your career in digital!

Foundation T Level students will complete 60 hours of work experience where you'll dive into the world of work and gain the skills employers are looking for. You will:

- Get hands-on and work on real projects.
- Boost your confidence and learn how to plan tasks, meet deadlines, and make smart decisions.
- Collaborate with professionals and see how great ideas come to life when people work together.
- Understand how to maintain a safe and productive work environment.
- Be part of a workplace that values diversity and promotes equality.

With this industry placement, you'll have hands-on experience to showcase on your CV, demonstrating your industry skills to employers.

Progression

After completing this Foundation T Level, you'll be ready to pursue:

- Progression to our T Level in Digital: Business Services or T Level in Digital: Support Services.
- Apprenticeships in IT Support, Software Development, and Cybersecurity.
- Further study in digital-related fields.
