Course Code	PA000079

Course Summary

Build the skills you need for a future in construction!

This course introduces key concepts like construction processes, building technology, and practical problem-solving. You'll develop technical knowledge while gaining real-world experience, setting you up for success in the construction industry. With tailored support and expert guidance, you'll be ready to take your next step in the industry.

Why choose a Foundation T Level?

- Real-World Skills – Get practical experience in construction processes, materials, and site management.
- Build Your Future Career – This course prepares you for further study in design, surveying, and planning, leading to careers in architecture, civil engineering, and construction management.
- Problem-Solving Abilities -Understand how construction projects come together,

from initial plans to final structures.

This course is ideal for you if:

- You want to understand the science and technology behind buildings and infrastructure.
- You enjoy hands-on learning and problem-solving.
- You're interested in design, surveying, or planning in the construction industry.

Apply now and take the first step toward an exciting career in the construction industry!

What You Will Learn

Skills you'll develop:

- Technical Knowledge – Learn about construction materials, structural design, and site safety.
- Problem-Solving – Tackle real-world challenges in planning and construction projects.
- Teamwork & Communication – Work alongside peers and industry professionals to develop collaboration skills.
- Attention to Detail – Understand technical drawings, measurements, and project specifications.
- Time Management – Learn how to meet deadlines and manage construction timelines efficiently.
- Resilience & Adaptability – Build confidence in problem-solving and overcoming challenges in practical work.

Modules

Core modules:

- Construction Methods & Processes
- Health & Safety in Construction
- Building Technology
- Sustainable Construction
- Mathematics for Construction
- Technical Drawings & Plans

Entry Requirements

Entry requirements are 5 GCSEs at grade 3, including Maths and English Language.

English and/or Maths will be included in your timetable if you have not achieved a GCSE at grade 4 or above in these subjects when you start your course.

Work Experience

Gain the skills employers want!

Foundation T Level students for this course will complete 6 weeks of work experience where you'll dive into the world of work and gain the skills employers are looking for. You will:

- Get hands-on and work on real projects.
- Boost your confidence and learn how to plan tasks, meet deadlines, and make smart decisions.
- Collaborate with professionals and see how great ideas come to life when people work together.
- Understand how to maintain a safe and productive work environment.
- Be part of a workplace that values diversity and promotes equality.

With this industry placement, you'll have hands-on experience to showcase on your CV, demonstrating your industry skills to employers.

Progression

After completing this Foundation T Level, you'll be ready to pursue:

- Progression to our T Level Design, Surveying & Planning in Construction.
- Apprenticeships in Construction Management, Design, Surveying & Planning, and Building Services.
- Further study in construction-related fields.
