## Arrangements for obtaining the views of students and staff

The Instrument & Articles of Governance of the College require the publication of arrangements for consulting with students and staff at the College on the determination and periodic review of the educational character and mission of the College and the oversight of its activities.

The views of students and staff are vital to shaping the College's strategy and approach. Feedback from students feeds into the College's quality assurance and review procedures, including the Self-Assessment Report and the Quality Improvement Plan. Equally, the College values the views and opinions of staff as part of its decision making and quality assurance process.

There are a range of methods by which students and staff are consulted and their views obtained, some of which are through direct report, whilst others may be via feedback distilled in reports by the Executive:

Students	Staff

The above methods are not exclusive and are kept under review to ensure they are fully accessible and meet the needs of Students and Staff and the Corporation in obtaining a wide range of views.

### **Staff and Student Governors**

Our staff and student governors are elected to the Corporation and play a full and equal part in the business of the Corporation and its committees.
