Bradford College

Skills for Employment

A course for students with SEND & EHCPs aged 16–24 who are working towards Entry 3 in numeracy, communication, employability and life skills.

Students take part in a practical and engaging study programme that aims to prepare young people with learning disabilities and difficulties for employment and adulthood.

You will develop your communication, numeracy, personal and social skills through classroom based and practical projects. You will develop employability skills such as team working, by volunteering in the community.

Your tutors will support you so that you can progress into vocational programmes or supported internships, and to be more independent within your community.
