

APPRENTICESHIPS

Advanced Carpentry & Joinery L3

The occupation involves carrying out advanced skilled work, primarily using timber products, either on a construction site, or in a workshop, creating and installing building components. The main differences between a level 2 site carpenter / architectural joiner, and a level 3 advanced site carpenter / architectural joiner are that the advanced carpenter / joiner has responsibility for managing their own and other people's work, as well as being required to complete complex and non-standard work.

Programme Start

September

Duration

18 Months

Entry Requirements

Level 1 English and Maths will be required to undertake this apprenticeship.
