

APPRENTICESHIPS

Healthcare Support Worker Level 2

Healthcare support workers (HCSWs) work as part of a team providing high quality and compassionate care to individuals. You will carry out well-defined routine clinical duties, like monitoring an individual's conditions (by checking things like blood pressure, temperature or weight). Depending on where you work, you may prepare individuals for healthcare activities carried out by other members of the healthcare team, looking after them before, during and/or after those activities in line with their care plan.

Programme Start

Various start dates throughout the year.

Duration

12 - 18 months.

Entry Requirements

Must achieve a minimum of Entry level 3 in initial assessments or already have GCSE A-C or 9-4.

Course Delivery Method

This course is delivered using a blended delivery model with learning taking place online or in person in the workplace. Our Assessors will also visit apprentices for workplace assessment. Study days at college are also available.

Future Opportunities

On completion, apprentices can look to progress onto the Level 3 Senior Healthcare Support Worker apprenticeship.

Course Content

The following skills, knowledge and behaviours are what will be gained from this apprenticeship.

Values

- You will be caring and compassionate, honest and conscientious
- You will treat people with dignity, show respect, show discretion and show resilience
